The transistor count is the number of transistors on an integrated circuit (IC). Transistor count is the most common measure of IC complexity, although there are caveats. For instance, the majority of transistors are contained in the cache memories in modern microprocessors, which consist mostly of the same memory cell circuits replicated many times. The rate at which transistor counts have ...

12 Rules for Life is a collection of life principles that, if followed, are meant to improve your life. It reached the #1 spot on Amazon's bestsellers list, and clearly it resonates with a lot of people. Its author (Jordan Peterson, a clinical psychologist and U Toronto professor) argues that modern secularism and reliance on science has left a void in answers to important existential ...
