Read the latest articles of Neural Networks at ScienceDirect.com, Elsevier's leading platform of peer-reviewed scholarly literature

### **Neural Networks | ScienceDirect.com**

An artificial neural network is a network of simple elements called artificial neurons, which receive input, change their internal state (activation) according to that input, and produce output depending on the input and activation.. An artificial neuron mimics the working of a biophysical neuron with inputs and outputs, but is not a biological neuron model.

Neural Networks is the archival journal of the world's three oldest neural modeling societies: the International Neural Network Society (INNS), the...

### **Neural Networks - Journal - Elsevier**

Deep learning (also known as deep structured learning or hierarchical learning) is part of a broader family of machine learning methods based on learning data representations, as opposed to task-specific algorithms. Learning can be supervised, semi-supervised or unsupervised.. Deep learning architectures such as deep neural networks, deep belief networks and recurrent neural networks have been ...

### **Deep learning - Wikipedia**

Recurrent neural networks are one of the staples of deep learning, allowing neural networks to work with sequences of data like text, audio and video.

### **Attention and Augmented Recurrent Neural Networks - Distill**

American Journal of Neural Networks and Applications (AJNNA) as a miscellany of relevant scientific articles on the results of research carried out in laboratories in different countries, including the theory of neural networks and the practical implementation of drafts in different directions of science and technology. The magazine serves the purpose of bringing together researchers in the ...

### **American Journal of Neural Networks and Applications**

IEEE Transactions on Neural Networks and Learning Systems publishes technical articles that deal with the theory, design, and applications of neural networks and related learning systems.

### **IEEE Transactions on Neural Networks and Learning Systems**

The human brain is a recurrent neural network (RNN): a network of neurons with feedback connections. It can learn many behaviors / sequence processing tasks / algorithms / programs that are not learnable by traditional machine learning methods.

Abstract: Object detection performance, as measured on the canonical PASCAL VOC dataset, has plateaued in the last few years. The best-performing methods are complex ensemble systems that typically combine multiple low-level image features with high-level context.

With the growing success of neural networks, there is a corresponding need to be able to explain their decisions – including building confidence about how they will behave in the real-world, detecting model bias, and for scientific curiosity.

### **The Building Blocks of Interpretability - distill.pub**

More recently, there has been a revival of interest in combining deep learning with reinforcement learning. Deep neural networks have been used to estimate the environment  $E$ ; restricted Boltzmann

International Journal of Wireless Communications and Mobile Computing (WCWC) , a peer-reviewed open access journal published bimonthly in English-language, aims to foster a wider academic interest in this fast moving field, and publishes a wide range of researches on the R&D communities working in academia and the telecommunications and networking industries with a forum for sharing research ...

### **International Journal of Wireless Communications and**

The objective of this journal is to communicate recent and projected advances in computer-based engineering techniques. The fields covered include mechanical, aerospace, civil and environmental engineering, with an emphasis on research and development leading to practical problem-solving.. The scope of the journal includes:
