(PDF) An amusement park physics competition

Amusement Park Physics is an educational approach to teaching fundamental physics concepts using an amusement park as a laboratory. Many variations of such activities have been conducted across the country over the last two decades. The USU Physics Day at Lagoon is the first such activity in the Intermountain Region.

This interactive exhibit, part of the Exhibits Collection, explores how the laws of physics play a role in the design of amusement park rides. Activities in the exhibit invite visitors to design a roller coaster and determine the outcomes of bumper car collisions. The exhibit also includes related Web sites.

People are wild about amusement parks. Each day, we flock by the millions to the nearest park, paying a sizable hunk of money to wait in long lines for a short 60-second ride on our favorite roller coaster. The thought prompts one to consider what is it about a roller coaster ride that provides such ...
