Guide to the Archaeological Site Form - dos.myflorida.com

Archaeological sites exist within a larger setting that includes both the environment and the local communities : Good practices must take into account the impact of archaeological tourism on the site and the natural environment in which the site is located.

A Guide to Best Practices - Archaeology

Archaeology (DUA). A revised and much expanded version of this manual was produced in 1990, accompanied by revised recording sheets. This is the third edition of the manual, produced by the Museum of London Archaeology Service (MoLAS), which was created in 1991 by the merger of the Museum's former DUA and Department of Greater London Archaeology.

ARCHAEOLOGICAL SITE MANUAL

Revised April, 2003 A Field Guide to Washington State Archaeology 5 What is Archaeology Chapter 1 An archaeological survey involves several steps. In the first step, before going into the field, we review existing information: site records from the area, historic documents, and the results of previous research.

Archaeology 101 Introduction Archaeology is the study of past cultures through the material (physical) remains people left behind. These can range from small artifacts, such as arrowheads, to large buildings, such as pyramids. Anything that people created or modified is part of the archaeological record.

Archaeology 101 Material culture Introduction that

With this guide to best practice, for the first time the whole archaeological discipline has a single document to use in ensuring archives are created properly, and curated in such a way as to make them usable into the

future. This document was born out of the creation of the Archaeological Archives Forum (AAF) in 2003.

Archaeological Archives - The Institute for Archaeologists

The purpose of this guide is to provide a general introduction to some of the historic artifacts recovered from archaeological sites in the Upper Sangamon Basin of east-central Illinois. Most of the field work has focused on the Mahomet area, but these sites are considered typical of material from the larger study area.
