Fingerprint identification, known as dactyloscopy, or hand print identification, is the process of comparing two instances of friction ridge skin impressions (see Minutiae), from human fingers or toes, or even the palm of the hand or sole of the foot, to determine whether these impressions could have come from the same individual. The flexibility of friction ridge skin means that no two finger ...

Kanji (漢字; listen) are the adopted logographic Chinese characters that are used in the Japanese writing system. They are used alongside the Japanese syllabic scripts hiragana and katakana. The Japanese term kanji for the Chinese characters literally means "Han characters". It is written with the same characters in the Chinese language to refer to the character writing system, hanzi (汉字).

Good user stories follow Bill Wake's INVEST model. They're Independent, Negotiable, Valuable, Estimable, Small, and Testable. The small requirement drives us to split large stories. But the stories after splitting still have to follow the model. Many new agile teams attempt to split stories by architectural layer: one story for the UI, another for the database, etc.

The particular focus of How Children Succeed was the role that a group of factors often referred to as noncognitive or "soft" skills qualities like perseverance, conscientiousness, self-control, and optimism play in the challenges poor children face and the strategies that might help them succeed. These qualities, which are also sometimes called character strengths, have in recent ...

Strange financial market and geopolitical maneuvers last week make it clear the end days of the cabal are fast approaching. The clearest sign was the wholesale looting of Japan's national pension fund by the Japanese slave government on behalf of the cabal. This bought the cabal some time by propping up the US government bond [â€]
