The etiology of pressure ulcers: Skin deep or muscle bound

Abstract. Differentiation of constrictive pericarditis (CP) from restrictive cardiomyopathy (RCM) is a complex and often challenging process. Because CP is a potentially curable cause of heart failure and therapeutic options for RCM are limited, distinction of these 2 conditions is critical.

A turning point came in the early twentieth century with the writings of Gerhard Heilmann of Denmark. An artist by trade, Heilmann had a scholarly interest in birds and from 1913 to 1916, expanding on earlier work by Othenio Abel, published the results of his research in several parts, dealing with the anatomy, embryology, behavior, paleontology, and evolution of birds.

Origin of birds - Wikipedia

Autologous bone graft is the gold standard clinical material for bone regeneration in term of osteoconduction and osteoinduction. However, limited availability and donor site morbidity are concerned.

Bone grafts and biomaterials substitutes for bone defect
